

TIME-TRIAL STOP WATCH – NOTES ON USE

- BEFORE USE, ENSURE THAT “MODE” IS SET TO “STOP-W (The arrow on the bottom of the display will be above “STOP-W”
- PRESS “A” to START TIMER – This will start the stopwatch – the overall running time for the event display will show on bottom line

3. Every time a rider finishes, PRESS “B” (Lap/Split/Reset) once.
 “Split” 1 time will be saved to the memory of the stopwatch and will be available to review on the recall button later. You can read and record the rider’s time from the top line. (here it is 32:20 for Rider 1)
 At each press of “B”, the “split” will count up to the next number. (Here it shows split 2 and a time of 33:01 on the top line). Note that the stop-watch continues to run on the bottom line at all times and will continue to run even when you press “B”

4. The stop-watch will record up to 100 riders’ times. Just remember to press button “B” as each rider finishes.

5. When last rider has finished, and you have pressed split “B” for the last time, **press button “A”**. This will stop the clock.

SPLIT TIMES REVIEW

6. To review the stored times, press button “C” repeatedly until the “Splits” appear; then toggle through them by pressing button “C”. You can do this as many times as needed.

7. “Zero” the stopwatch when the word “Split” is not in the display. Press “B”
